Dear Marge (the one
who appears occasionally -
do I have right name?)

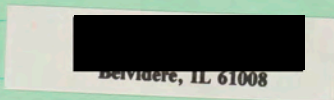

2 requests: ① Bring
on that Camille Paglia
(what a beautiful-
sounding name) again -
she is dynamite!
Yes I don't agree with
a lot she says but
what innate intelligence
& intellect & common
sense... We need someone
like her to speak out.
Wow!

② Please Please change
the introductory theme of
Washington Journal.
I love classical music
but I don't want to hear
those militant trumpet

O.W.)

passages ever again.
Yes I do use mute
on it but surely
it's time to change
to another selection -
even Mozart's Night
Music would be
better than that!

Thanks +
double thanks.
