I watch C-Spon because it covers what I would classify as the hard news in our country. None of the sensational that we are exposed to on the regular channels of murder, rape etc.

I am a college graduate in the year 1930. I cast my first vote in 1932 and have never missed voting since and will confess that I have picked the wrong candidate and Party a couple of times.

Education is a continuing process and one must read, listen and evaluate daily and C-Spon does an excellent job of helping people to so to speak separate the wheat from the chaff.
