

To Everyone at CSPAN. I have really learned  
at from your station just like Ed Rollins  
George will really tell the truth. I like all the  
debates they discuss. I am in my 30ths and never  
really enjoyed voting until the last year. The  
Republicans know their stuff. I live at home and  
they don't understand the Republican views. They are  
very Democrat and will never change. I made a  
intelligent switch to a proud Republican. More  
and more people are switching. This is due to  
better education and jobs very extremely low unemployment  
this is due to all the Republicans who are  
the one and only choice. No I can't let my  
parents know they would probably kick me  
out of the house. They are in their 70ths  
and very hard headed. So one out of 3  
was convinced that is a start. If one out of every  
3 would change the Republicans would be in  
great shape. We have had 12 years of Republican  
as president. I am a O'Leary man. I hope he  
becomes President he is young and smart.  
He would do a great job. He would be  
a great president of the 90ths. Like he said  
in a debate with Lyod he had as much  
experience as John F. Kennedy he has more  
alot more.
