-- C-SPAN WRAPS-UP "STATES OF THE NATION '85" --

-- Lake Tahoe, Nevada and Wilmington, Delaware Last Stops --

WASHINGTON, D.C.-- C-SPAN cable network wraps-up its 1985 programming effort — "States of the Nation '85" — with coverage of two state government conferences from Lake Tahoe, NV and Wilmington, DE.

These two final stops bring the year's tally of state-related original programming to 281 hours.

During 1985, C-SPAN cameras ventured beyond the Capital Beltway to gain additional perspectives on the shift of leadership from Washington, D.C. to the states. This December, a wide range of state officials gathered in Lake Tahoe to receive a report from the National Council of State Governments (NCSG) on the "State of States." During the three-day meeting, state leaders discussed the fiscal challenges confronting them with the onslaught of federalism.

Also this month, seventeen Republican governors took part in their annual conference, hosted in Wilmington by Delaware Governor Mike Castle. Throughout this meeting of the Republican Governors Association (RGA), the governors strategized on capturing a Republican majority in the nation's statehouses in the '86 elections. (See attached program schedule for NCSG and RGA session air dates and times.)

The "States of the Nation '85" stops in Lake Tahoe and Wilmington round-out a fourteen city tour of grassroots America, complementing C-SPAN's coverage of state-related events in Washington, D.C. C-SPAN committed the year to the coverage of issues and events reflecting the responsibilities and opportunities facing the states. Here's a wrap-up of "States of the Nation '85" programming:

- 14 Cities visited, including 10 state capitals
- 281 Hours of Original Programming, including 171 hours On Location
- 118 Hours of Viewer Call-Ins, including 72.5 hours On Location
- Special Guests: 32 Governors
- 30 Mayors
- 37 State Capital Journalists
- 163 Hours of Major Conferences/Special Events, including 99 hours On Location
- Organizations Covered: 45 Hours of National Governors Association
- 14 Hours of National Council of State Legislatures
- 11 Hours of U.S. Conference of Mayors

"States of the Nation '85" reflected a major effort by C-SPAN to expand its programming emphasis to include state and local issues in its mix of public affairs offerings — a trend the network plans to continue during the '86 election year.
