

Dear Sirs.

We were very dissappointed with your questions of the Canadian health care people.

Press people always ask in generic terms. We wish you would ask direct questions so they can not spin around the question.

Our questions would be - if I went to a hospital for a hernia operation, how long would it be before I could have a operation, also how much a Doctor would make compared to a U.S.A Doctor - also, would I have a specialist. I believe the Lady Minister said emergency care would be taken care of in 2 days. I would have questioned her further
