

many fools both in and out of congress⁽⁷⁾
scream about so many people on welfare
First of all, most are about 3 to 1 ratio
are whites (I am white but from what
I can see I believe this to a fair but very
conservative estimate).

Nobody will believe this but our government
does NOT WANT ANY body OFF From
welfare, AND BY ALL MEANS NOT
ALL That Educated.

(this relates directly to the fact so many
of the misinterpretation and problems exist
Because so many people to day hold
places or positions for which they not
qualified from the top like Bill Bennett
down to the lowest paid social worker
or welfare case worker)

people set in judgement off of veterans that
have never been in a V.A Hospital in their
life, people set in ~~in~~ positions on welfare
programs that never have even seen a food stamp
or have any idea what it will cost

or on medical programs that couldn't sell
measles from AIDS. This what evidently our
Government and Industrial, State Federal agencies
want — one bunch of misfits taking care of
another bunch of misfits! (For minimum wage
is a hell of good deal for them.)

Welfare Mothers cannot get off from welfare.
Because of the Medicaid benefits alone,
the Vocational Rehab programs are one cruel
joke, They originally were designed for the under-
educated people 4th to 5th grade They take people Nowhere
you can get minimum wage going in, some after
going thru the course. I know this to be true because
a friend of mine went thru one of the classes here
she learned photography BLACK + WHITE she was very
adept at it but who wants a photographer that
takes just black + white picture, she learned she
could NOT take color photography, she couldn't
afford it and the school wouldn't teach it any way
so all of these people that take these Voc Rehab
course are still headed down a dead end street
plenty of educated misfits who still ^{are} available
at slave wages. I have asked what ever
happened the CETA project in the 70's
but have never got an answer?

Bush's Big military maneuver of the ⑨ year the whole 82 Airborne after one man Noriega. I spent 2 1/2 yrs in Panama during the Korean war at Ft Clayton canal zone. I have 2 comments IF Noriega Trial is postponed until January, I would willing to bet he will not be here by Jan (due to health problems) Has anyone ever told or Explained to the American people that in these South American countries the president is just a figure head (like the Queen of England) The military control the country. Ortega will have more power than before because he will not be in the spot as president. In a few months Panama will also have a new military leader to. President Bush has done nothing since he has been in office, only make promises, that Congress has to figure out how to fit them in to the Budget or do they?

I have also wondered how it must look to the rest of the world, with all the scandals and corruption going on in our Government, the Defense contracts rip off
