

C-Span 002594 MAY 27 93  
Dear Brian

I havent been able to get through on your call line. I did want to ask my question! It is - would you please ask someone who could tell me - Why do they say in Washington and in all media, that they are going to tax our Social Security? As I have heard for years they can only tax what is over and above what we earn, over Social Security payments.

Please get this answered for us older ones peace of mind. I do think it should be taxed when we earn more than the S.S. always has been! I think!?

Sincerely - Eunice Nelson  
I listen every day to C-Span.  
Thanks a lot!
