Dear Mr Lamb,

It has taken me a couple of years to write to you about your presentation of a show filmed in France about Alexis de Tocqueville.

I have kept this anger in me for all this time but since it took me all this time to remember your name and where I should write to, here I am...

We are coming to memorial day and it is very fitting for me to remember all these wonderful americans who died for us in order to liberate us from this evil:

HITLER AND THE NAZIS.

I am a holocaust survivor and therefore very grateful to America and all Americans who helped win WWII.

I loved your show,!! but ~~at the end~~ you had some descendants on, counts and dukes, who questioned why America was always acting as if they wanted to control the world. I thought if I had been there I could have answered much better than you did, In fact you gave such a weak answer and it left me furious to this day! These frenchmen who didn't even defend their country. When I was in

2) Arras (France) bombed on May 1st 1942. I was there and the city was defended by the British! These lousy Frenchmen, dukes and counts, would have never repossessed their chateaus! Only Americans liberated them died for them, in order to get their castles back again. What a shame to open their mouths and criticize America.

Their castles were in shambles and would have stayed that way under Nazi rule!!!

Forgive me my shaky handwriting as the fury is still there - and my typewriter's ribbon gave out - And for you to invite them yet, that was the coup de grace! I just wish you would make some remark about that perhaps you could mail them a copy of my letter. I wish they would get it and keep their mouths shut about America. Thank you!
