Dear Sers:

AUG 06 ANSD

CC: Chris Appleby
Lisa Kerr.

I've been going to write to you about your coverage in the US Senate, or, in this instance, your non-coverage in the US Senate.

I have heard there is coverage of the activity that goes on in the US Senate, yet, the only time I've seen the inside of the US Senate has been on the 6 o'clock news. I've seen (quite) quite a bit of the activity inside the US House.

Why is it that I'm being deprived of seeing one of the most important activities that goes on in Washington DC?
How can this be rectified?

I enjoyed your coverage, inside the House, during the flag debate and hope to see the same of the flag debate, Title X, etc. inside the US Senate.

I hope to hear from you soon about

this, especially since I was unable to view any of the 'going ons' inside the Senate regarding the Americans W/Disabilities Act.

Please, help me, so, I may view the debates inside the US Senate, & please, write soon.

I heard tonight, on C-Span, that you were concerned about viewers opinions regarding C-Span coverage in their homes.

I like it very much, in fact, I watch it very often; the only trouble is that I am unable to watch any coverage of the Senate proceedings. In other words, we don't get C-Span II in our area; since I'd like to see that change, what do I do to make that a reality, and am able to see Senator Rudman, along with the 99 others?

Speaking of Senator Rudman, I have never seen him on your station and I believe he would be an asset to have him on TV. Why has this never occurred? Or have I missed something good?

I hope to hear from you soon,
