Representative Schumer,

There was a similar scenario ,to the one now being played in America ,that was played out in Germany, the years were 1933 thru 1938 where law after law was passed DISARMING the citizens of that country, as President Clinton calls for a national police force (Mostly Force), so did Adolf Hitler they were the Brown Shirts the fore runners to the Gestapo.

Charles for the sake of all on this planet, must you force America into this scenario, can we learn nothing from history ? Who will play the part of the JEWS this time, the same ones or maybe some other group ?

We free men have a Constitution, it was written to limit the totalitarian power of a central government, we will not give up our freedoms, know this it is written in stone.

State Dept. doc. 7277 along with PL 87-297 and PL 101-216

all call for the total disarmament of the American People, right down to your pocket knife (read these) UN forces are are here supposedly training, 300,000 to 600,000 at various places around this country along with full combat vehicles enough to outfit a 20,000 to 60,000 man strike force (these have been visually verified)

like Moses was in Egypt and the Jewish and others before Hitlers rise to full power, we don't need this.

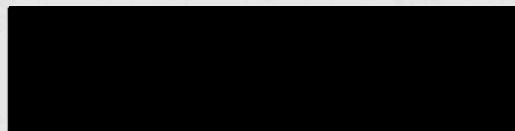

We the people believe that the UN troops will be used against the Americans in a futile attempt to disarm us when the smoke clears who will be in control?

Why they
are doing this
unless
they
are doing this

This can be stopped, crime can be reduced lawfully,
EDUCATION is the answer to it all, get America out from
Under the U.N., we do not need another layer of
totalitarian rule.

May he who created all guide you,
for the future of mankind is in the
balance.
