To whom it may concern:

Today is November 26, 1996 and I have just finished watching Washington Journal for the last time. One time too many you have not succeeded with your effort to have an equally fair playing ground. A number of times I was so relieved to hear the end come to a vindictive, nasty republican call, only to hear another one right after. The fates were 2 in a row bashing President and Mrs. Clinton. Maggie Gallagher like most republicans feels it is alright for them to sit and say anything they want about our President and First Lady without any proof, if they say it, it is gospel, but shame on anyone who says anything about a republican without proving it 100% first. Someone called in the other day and told the Democrats to leave Newt alone and get about the important work they were sent there to

do. This is a person who watched a great deal of the Whitewater hearings and I do not know why they were even held. I do remember very well, one day some papers had come to the Committee clearing the Clintons of charges and I recall how long it took and what a struggle it was for Dodd and the Democratic lawyer to get those papers brought forth. I waited for the "liberal" press to bring this to us in the days to follow and have yet to see it. I am asking the Republicans the same. "Leave our president and first lady alone and get to the business we sent you there to take care of."

Each time a Republican mentions papers not brought forth by the Clintons they should be reminded that Bush has yet to bring forth papers.

When they want to criticize our first lady, I would remind them that Barbara Bush used the word "Bitch". Mrs Clinton was called a "bitch" and handled the situation like a real lady and a real Christian.

The main reason this was my last viewing of Washington Journal is that two foxes were shown in which our President and First Lady were called Communists. Putting one of them on upset me but seeing you give time, space and credence to two was

an absolute last straw Shortly before the election a caller, one of these nasty, foul-mouthed at that point desperate Republicans called in and labeled our President as a Child Molester. The host of the program had the sense to cut this horrible person off. I do not know who was in charge today, but someone was not doing his or her job as disgusting, ignorant statements like that should not even be allowed on. I have tried for a long time to get in via telephone, I have written a letter. I can't get through but something like that can. I find watching this show a waste of my time and effort.

One last thing. If I hear "liberal news" from the Republicans again I will "upchuck". I haven't found a network yet that has been fair to President and Mrs. Clinton. All that is is an excuse for them to have the 700 Club news and the Fox news network. And we all know how fair Rush Limbaugh is.

I want to remind Rush, Pat Robertson, Tom DeLay, Monica Cheren, Cal Thomas, Mary Matlin, Newt Gingrich, Bob Dornan, Bob Dole and others Republican and Democrat of the 8<sup>th</sup> Commandment: "You shall not bear false witness against your neighbor." ! ! !
