Dear Sir(s):

C-Span is doing an outstanding job for this Country and it is so informative about all subjects. However, may I make a few suggestions on MY part?

- 1..... Have more call-in shows on the week-ends that give more of the public that work to participate. The early morning shows people are usually getting ready for work and all the other chores before leaving for the day and do not have time to listen or participate.
- 2..... When you have guests let the public have more of an opportunity to call in and say their peace and not so much laking from your end. It seems the call-ins can't get through or when they do, they can't say what they want to say in the short period of time allowed by them.
- 3..... We especially enjoy you taking your cameras to different events and showing them on the week-ends.

Around 7 P.M. here in our area C-Span is cut off for over an hour or more for county and city events, so the working class miss out on a lot.

Thanks again for C-Span. I hear from listening to your station that many people feel you are without the best in TV. Best regards,
