Where are you on the list? How about your children or grandchildren? Wait awhile--it's increasing daily!

*Note: Brian, I appreciate your attempt to bring fairness to "Media"
Here are viewpoints that you won't hear.*

"Free-Traders" or "Traitors"
Wake Up Americans and Media!

For a decade we have been stuffed with "Free-Trade" propaganda, ie. growth, jobs, prosperity, etc. Facts, however, indicate we have lost millions of jobs, ran huge deficits, and watched America crumble.

Anyone who is awake has certainly noticed that the majority of these "Free-Traders" are either on the pay-rolls of, or are obligated to, Corporate "sponsors" who are in the import business! For over a century we have created an American market where willing citizens have worked to provide for their own consumption and export. These profits, wages and taxes have created the standard of living we have enjoyed. In Europe and Asia as well, where industrial output has risen, the standard of life has risen as well, and these European and Asian markets "wisely" protect against excess imports that would damage their workforce! It must be a reciprocating privilege to sell in the American marketplace and not the right of "Exploiters"-foreign or domestic! Those seeking to profit in the U.S. without reciprocity are no different than military "enemies" in times of War, and those in Government who serve such interests are guilty of violation of Oath or Treason! We cannot formulate solutions if we are not informed of the problems, so it appears our media, as well as Congress have let us down! If ridding your Country of manufacturing were the key to success, Mexico would not allow the construction of over 1,000 industrial plants by U.S. firms! And if U.S. firms thought that Mexican wages would ever approach U.S. levels, they would not have built them!

The accrued costs of this "planned moveout" of American industry has taken a severe toll! Miles of empty plants, cold mills, and legions of unemployed (who are no longer counted). Faltering economies of entire cities, states and regions, while most goods in the stores are imported! The "Higher Education" lobby has convinced most of us that they have the answers, however, we must look for ourselves at what has occurred over time. If "Education" were the only answer....we would be twice as well off as we were in the 50's! If "Education" were the only answer....companies would not build plants in the Third World! Technical jobs will no doubt continue to increase, but the "technical retraining" rhetoric is a cruel myth offered as political "medicine" to a dying patient! The first "education" America needs is to know who is paying who, and get it stopped! Facts clearly indicate that since the manufacturing move-out, most new jobs created have been low wage, no benefits, no future and temporary in nature! As American wage earners are "kicked out", "moved-out" and "sold-out" by firms and politicians, the so-called "Professions" who live on them are marked for massive reduction, Medicine-Law-Government-Sales-Service etc.

This "reduced" market is rarely acknowledged! This so-called "global" economy does not require doctors, lawyers, or politicians to compete, only wage earners! Manufacturing has brought the world out of the Dark Ages. It has triumphed in two World Wars and has proven it's value time and time again! We need to immediately rebuild the manufacturing sector to lead the World in the production of goods for America as well as others who would trade goods or services we "cannot" produce!

The "zealots" who are controlling America and who cling to 18th century idiology should and would be exposed as the "idiots" they are by a responsible press! Instead, the press constantly exposes us to meaningless "left-right" dogma, while the "Free-Traders" rake in millions and laugh up their sleeves at a country full of suckers!

America must immediately take steps to reverse the damage accrued over the last 20 years of neglect and exploitation! A comprehensive plan including capitol investment, tax incentive, research and development, legal and social incentives, administered nationwide and on state and local levels, must be America's priority as well as demanding fair trade policy now! This policy must represent the interests of the "entirety" as opposed to a few "connected opportunists" who would profit at the expense of a dying America. What are you going to do about it? Today!

To the Elected Representatives of the PEOPLE†

You must vote "NO" on N.A.F.T.A.!!!!

Because . .

1. The time is long overdue for the government to represent the people and NOT PAID CORPORATE LOBBYISTS!
2. For TOO LONG Americans have witnessed the sell-off and trade-off of our industries and the ACCOMPANYING DECLINE!
3. MEXICAN LOW WAGES and MISTREATMENT of workers for a century has had no benefits for the U.S. and certainly NOT for MEXICAN WORKERS!
4. America needs MANUFACTURING to produce for our own consumption in domestic markets, pay taxes, build a future and EXPORT!!!
5. Americans CANNOT support their families OR THIS GOVERNMENT on WAL-MART WAGES! Service industries do not bring IN money to the U.S.
6. The U.S. does not need, nor does it want a 2000 mile gate into the poverty and despair of the 3rd world called MEXICO! We cannot handle the current flow of ALIENS!, How about 20 MILLION!! (10% of which are in the DRUG TRADE!).
7. OVER 1000 NEW PLANTS in the last few years have put MEXICAN WAGES even LOWER than they were!! Not to mention OUR AUTO-MAKER who SHOT ! workers for trying to improve their lot! DONT IT MAKE YOU PROUD?
8. If you think HEALTH CARE costs are important, (and they are), you must FIRST CONSIDER INCOME, because WITHOUT THAT, it doesnt matter how much anything COSTS!
9. CORPORATIONS who enjoy the profits of the AMERICAN MARKETPLACE must bear their fair share of MARKET SUPPORT (EMPLOYEES, Infra-structure, etc!) THIS MAKE IT THERE - SELL IT HERE GAME MUST STOP!
10. Why should AMERICANS support European countries or ASIAN countries while the U.S. crumbles and dies in its own deficits! DEFICITS that have been brought about in large part by the 10 MILLION DISPLACED WORKERS! You wont hear that on the IMPORT-ADVERTISOR OWNED MEDIA!
11. FURTHER OUTFLOW of CAPITAL will only hasten the demise of the U.S.! Why would a banker want to loan me money here at 8% when he can loan it in MEXICO at 20% PLUS 10% of the PROFIT? CAPITAL OUTFLOW should be TAXED! THERE WONT BE ANY CAPITAL INFLOW TO INVEST IN PLANTS IN THE U.S., NOW WILL THERE?
12. THE FOUNDATION OF AMERICA is made up of AVERAGE CITIZENS and our first obligation is to insure the vitality and well-being of all our people because these AVERAGE CITIZENS produce the financial support for GOVERNMENT, the PHYSICAL SUPPORT for our MILITARY and the SPIRITUAL SUPPORT OF OUR NATION! WITHOUT THESE, MY FRIENDS, ALL IS LOST!!!!!!
