Dear Programmers:

What a pleasure it was to watch your 8 a.m. Round Table program this date, The Saturday Journal. Your participants were delightful. It is seldom we hear such excellent participants as Frederick Yang. and Kellyanne Fitzpatrick. It gives us renewed hope for the young people in our society. Such eloquent, sensible and well-informed speakers appear on few program nowadays. The self-serving liberals such as the school-teacher who called in upholding public education illustrates the reason for our big problems in today's public schools. We need to get the Fed. Govt. out of the education of our children & return it to the local government. Sincerely,

[REDACTED]
