Dear Mr. Lomb:

I had to give up in trying to reach you by phone during your call-in program.

I watch C-Span religiously and appreciate your coverage of Washington, D.C. but find all investigative reporters, because their employment depend on the big government, are not honest about the 4 trillion dollar debt they have created by selfish spending. The President's so-called deficit reduction plan passed by Congress in August 1993, will increase the National Debt by another \$1.5 Trillion. In 1991 Congress cost the American Taxpayers

II
a stunning total of \$2.8 Billion —
in salaries, expenses and operating
costs.

While senior citizens struggle
to live on social security, Congress
quietly gave itself a multi million
dollar retirement plan that will
make millionaires of nearly 200
retired members of Congress and 300
more current members when they
retire. The price tag: over \$450 Million.

The Congress has stolen the Social
Security Trust Fund from the Treasury
to do the above and worse every second
of every day they add over \$10,000
to our 4 Trillion Dollar National Debt!

Now that both the Senate and the
House have passed a ban on assault
weapons, other channels on TV have
told how Congress not ~~only~~ did not
appropriate money to the Bureau of
Alcohol, Tobacco and Firearms but
cut their appropriations to tie their
hands from going after the criminals
selling illegal assault weapons to
youths and criminals and the speakers
in the house spoke of The Bureau

III
of Alcohol, Tobacco and Firearms
being in charge of enforcing
the new ban. They do not
have computers to keep track
of good files and when I called
my senators I was told by
a clerk the money went to the
F.B.I and never received a
requested written response
from either of my senators
and none from my representative
even though my request was
sometime ago.

Why is it I do not hear of
any of these things on C-Span
and why have I not been able
to reach you by phone for over
a year or more?

Sincerely,

[REDACTED]

P.S. I honestly believe Congress
has had a gun to the heads of
the American public and if we did
not have Congress we would have a
true Democracy.
