Sometime back, you had written on your channel from "Reason" and "The Nation" magazines. I've seen issues of the Nation but have not been able to find "Reason".

I have very interested in finding a sample copy of Reason but don't have their address.

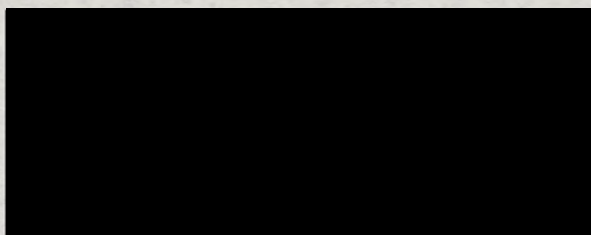

Additionally, how can someone obtain a publication list of alternative magazines such as these two. I have more faith in non-big name magazines.

Is there a list or catalog? Would it show the political ~~stance~~ ^{stance} of the magazines?

I would appreciate hearing from
you on this.
