Re: Washington Journal 8 May
(FCC Commissioners)

The above appeared to be just another brown-nosing effort engineered by Brian Lamb. Lamb certainly counts to keep the C-SPAN wheels well-oiled with the FCC, especially when it comes to the cable TV industry (Lamb's real ticket). It is so obvious that Lamb hosts Washington Journal only when the influential and powerful are scheduled to be guests - he doesn't mess with the small fry. It's a joke!!

Callers are conditioned to parrot the mantras "thank you for C-SPAN" and "thank you for taking my call" why should callers thank C-SPAN for anything - cos cable subscribers are paying for C-SPAN plus the calls! It's ridiculous! The "thank you C-SPAN" litany is getting old - without us Mr. Lamb would have to go back to being a dance instructor! Also I could do without Lamb's Indiana-bias, which is quite evident!
