Thank you so much for having Mario Cuomo on. He's great! I'm one of many that are begging him to run in 1992. We need a strong, articulate "Pro America" president.

Reagan-Bush have pimped for the rich too long, de-regulated financial institutions and left us tax payers holding the bag. Our grandchildren are now in shock!

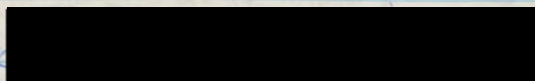

Cuomo knows what America needs. This is another depression, not just another recession. FDIC is the only difference between 1929 & 1991.

Bush will bail out S & L's, the Kurds, Bangladesh, etc., but he won't bail out or help Americans.

Please keep Cuomo in front of the camera, so the American

people understand why their
States are in trouble.

Thank You,
