Re: Viewers Morning Call-In -

This program used to be an island of intelligent, informed discourse between callers & journalists who fit that description.

The journalists still do, but somehow, the people who call AM radio have found your wonderful program. Your journalists have done a great job answering almost unanswerable questions

Of course, there's no way to reverse this trend, beyond eliminating the call-in.

I have no solution to this problem — The calls of this morning about the Supreme Court & Pennsylvania abortion law certainly demonstrate that our island of sanity has been invaded.

At one time I planned to write to ask how one gets a call through. — Busy, busy, busy. — However now I'm not too interested in being a part of that crowd!!

Logic fan, watcher & listener —
