Dear Mr. Lamb:

This is just to let you know that I very much enjoy your network and also to make a suggestion.

I particularly enjoy the British Prime Minister's Question Time (if only our presidents were subjected to such unscripted criticisms!). With the launching of the BBC's new cable news channel in Asia (competing with CNN), I had a thought: Since the PM's question time on C-SPAN (not to mention BBC World Service radio news on many PBS affiliates) is interesting to a US audience, why not relay BBC news (and/or news produced by TV networks in other English-speaking countries) on C-SPAN? Surely there is a large enough audience?

What do YOU think?

Sincerely,
[REDACTED]
