Dear Brian Lamb

If the representatives of our Government are truly trying to cut the deficit, why don't they wake up? I get such a sick feeling when I hear any of you on T.V. making suggestions as to how to cut the deficit. Don't begin at the Bottom, Senior citizens, disabilities and some of welfare. It is time to be realistic and begin at the top: Congressmen, Senators, all All top government workers salaries and pensions are running out of control. All of you, compared to the "Little People" are living high on the hog. Your Salaries should

be slashed. I know it
sounds drastic + impossible,
but I say in half. Then, perhaps
you'd realize how difficult it
is to make ends meet. And
best of all you'd be saving
Billions, and, if this money
(instead of lining some ones
pocket) would truly be
applied to our country's
deficit — what a wonderful
day! Over a period of time —
(Billory's 5 year plan?)
we perhaps would look like
the America we used to be.

A country to look up to.

All citizens are trying to
live to High. If everyone would
cut up their plastic money and
try to live off their high
Salaries (my income is very

Now, I have one credit card,
for emergencies only.) everyone
in U.S.A. would realize we are
in a Depression. Wake up before
It is too late. America is
going down hill in more ways
than one. Some Crime is happen-
ing because those people
creating it can not afford
to buy what they want. And
Millions of people are being put
out of work daily with no jobs
in their future. Give the people
a Signal that you care and
are truly trying to help our
Country. Slash your Salaries.

Very Sincerely

Sent to

Congressman Dean Gallo

" Bob Dole

Senator Frank Lautenberg

Larry King
