

Dear Brian,

Thank you for getting TCI to restore C-SPAN 1 & 2 on our cable lineup.

During your Tocqueville coverage, please have a quest discuss the tyranny of the minority & the constitutionality of Socialist Insecurity, as politicians confiscate the incomes of the majority, to reward the minority with unearned largess, who return the pandering politicians to office.

It's laughable hypocrisy for the government to prosecute private sector Ponzi scams, yet the same government operates the mother of all Ponzi scams, Socialist Insecurity, the bankruptcy of 2029.

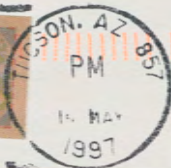

Again I ask, is this constitutional?

And to confiscate the wages of underaged employees who can't vote, is definitely FICA taxation without representation.

Brian, the clock is ticking, & I'll thank you for exposing these schemes perpetrated on my grandson's generation.
