Dear Brian

004094 SEP 16 91

To me you are Mr. C. Span & in need of another person of substance & I do address this to your attention.

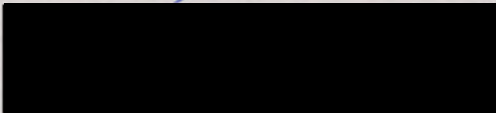

I have written twice before; once to complain of C Spans tilted treatment of the abortion issue in favor of the extinction of the unborn. I delighted in the fact that you showed my letter on the screen & this was the cause of my second letter. This my third carries the same complaint — you people tilt toward a right, a fundamental one to destroy what is called the product of conception. This I say again because of the interview yesterday with the theologically & philosophically illiterate Congress man Dan Edwards. Did you hear his nonsense about "abortion" being a totally heinous crime? Please!

With the scales as they have been tilted thus far I do think that in the

interest of Truth you owe an attempt at balance. When will you give space to a Congressman who is appalled at the killing of 4000 pre-born in the United States each day?

Generally, at home C-Space and all the Truth (but only the Truth) is carried.

Good Luck,

P.S.

as it real this you should hear the biased remarks of Mr. Caplan as he discusses Judge Thomas & those champions of truth & liberty the Democratic Senators. 10
