Dear C-Span,

2575

Would you do a "special" on Ian Gow, MP? I just saw what happened to him on CNN. I'm outraged, but I remember Ian as the wonderful wit who helped introduce television to the Commons. His loss is like losing a good friend. I'm sure he had much American support, and I hope this support is conveyed to his friends etc. in the U.K.

Sincerely,

Mt. Dora, Fla. 32757
