Dear C-Span Bosses:

Subject: Captioning

Due to the American Disabilities Act - You have stopped Captioning the 2-C Span Stations which is now a great Barrier to the Deaf.

When you captioned every-thing on Channel 48-49 - I enjoyed getting educated. Now, it is a struggle because you stopped the captioning - Why? Money is no excuse since you created a barrier for the Deaf People.

As member of a Handicapped Committee, it's my Duty to ask you to remove all Barriers to deaf people.

When you have the Moscow news on at 6 PM Ch 49 you must caption it in English. A lot of people in the US do not under-

stand Russian but students would like to learn events in Russia. They can still speak in Russian but caption it in English.

Please do not remove the Moscow news on weekends. We need it

on more and more frequently
because it is an excellent
educational broadcast.

We must Remove all barriers
for the deaf. It's not only
the deaf, but students who
are learning Russian, students
who have to write reports
and do research and more.
The House of Rep / Congress meets
must be captioned also.

Be on the alert that cablevision
does remove captions. Please
get after them. It's against
the laws.

Thank you
Please do it now -
Do not Delay.
