Dear Sir,

This letter is directed to Miss Mayo
whom I watched on C-Spon with great
interest. She was talking about the affairs
of our presidents past & present. She said about
 Ike that ~~he~~^{it} was questionable that he was
having an affair. What do you think he was
doing in the evening, hitting on, pearl two?
I dislike very much when ^{they} talk about Ike
as if he had a halo over his head. In a
previous letter to C-Spon that I wrote
that Ike was responsible for 3 of our
fine divisions that were decimated, when
the battle of the Hurtgen was over we
had over 33,000 casualties and for this
he gets 5 stars, named an aircraft carrier
after him and then they elect him
President of the U.S.

G. Amante R

are you aware it was him who
first sent those advisors to Vietnam.
in which eventually led to 58,000
names on that monument in D.C.

Miss Kaye Summersby wrote 2
books one was "Duke was my Boss and
Past Forgetting" my love affair with
Dwight D. Eisenhower". So there should be
no question about his having an affair.
How in the name of heaven could they
put a statue of him at West Point.
Back in 48 I was a Corporal and
President Truman gave Corporals housing
allowance and separate rations. Well the
years went by and I was stationed in
Verdun, France. There was no housing in
Verdun for Sergeants & their families. They
called us in one day and said we were
losing our housing allowance and separate
rations. Duke was President, what the democrats
giveth the republicans taketh away. It is
not as if the republicans too good for the
troops so give them nothing.

Respectfully
