Dear Brian Fent

I heard today on C-Span when
Susan Swain said that James Carville
said something and she said it was dumb
and I still think it was dumb of
Carville to say that

When ~~this~~ has the moderator expressed
herself as being a critic.

She was out of line when she said
"Dumb". She must be a Republican leader.

By the way, I enjoy C-Span and
Susan Swain but she stepped over the line
into politics, treating James Carville.
