Dear Mr. Lamb,

Please help us.
There is an attempt to
enforce martial law in this
country curtailing the freedom
of speech. Please see tape
of Larry King with Alexander
Haig on CNN on 12/6/90.

Please see Brzezinski
on Crosbie last week
where he referred to the
Gulf crisis as being a
smoke screen for crack-
downs on the republics in
the Soviet Union. Where
is Gorbachev? Please see
the National Press Club
interview w "retiring"

+ putting "their house in order,"
Bush walks into a revolution
in Argentina + calls it a
democracy yet gives almost
nothing to real new
democracies in E. Europe.
There is slanted press coverage
on the "fragility" of Polish
democracy as if to prepare
for its failure. Yet Bush
wants a trade agreement
with the U.S.S.R. + not
with these countries who
have actually done something.

I believe Bush is being
blackmailed; that he has
contempt for the American
people - that he will look the
other way for China, Russia,
Syria + Israel so that he +
Gorbachev can divide most of
the world between them. I hope
you can prove this wrong - so
for nothing else makes sense.
Stay true!

Also, Brian, why are there
"closed door" meetings at
Senate Ethics Committee?
Where's the sunshine? Or
is most of Congress truly
afraid the truth will
get out?

Why do we not
have the option of a
"no confidence" vote in
this country? Please
explore this. Thank you.
America is beginning to
wake up. I hope to a new
dream of freedom not a
nightmare of martial law,
(terrible analogy but you
know what I mean.)
