Dear Brian

My wife and I want to congratulate you on your fine show, we watch about all the time your on T.V.

I couldn't get through on the phone so I'm writing.

As I listen to every one and call you receive I can't help but say my piece.

We are 86 and 88 years old, so we been around a long time. We have seen all of this before, since Hoover's time and since, good times and bad.

If you would read the National Best Seller book on Truman by David McCullough Copyright 1992 900 pages. people would see that the Republicans was doing the same thing to Truman as they're trying to do to President Clinton. They're not thinking about our country only of themselves. As far as I know they didn't succeed during Truman time. Not picking on every thing. disrupting an Clinton things he wants to do.

It makes us sick to see these ingrateful politicians tear down our President

Sincerely Yours

P.S. Keep the good work Brian
we love you.
