In Washington Journal why
don't you raise the question -

Can one Congress tie the hands
of succeeding Congresses? No!

If the Democrats win the House
in 1996 or in near future the
Senate the big 7 years boggy man
can be 'dead in the water'.

How can any one Congress
decide 7 years in advance.

7 years is a life time in politics.
Why don't you or someone raise

this question?
