

1) Thanks for your gavel to gavel coverage of
both conventions and Nader, Brown, Perot, the gays, etc.

2) Your programs on books are outstanding.

← 3) KEEP the split Democrat/Republican
telephone lines, please. What a relief
it is!

4) History will note that retirement
was radically transformed by
C-SPAN programming.

- We get up too early and go to bed too late.

- We are overstimulated by arguments, comments, ideas, and live human drama.

- Our houses are a mess. They are cluttered with books we've heard about on C-SPAN.

- We exercise more because it's the only thing we can do while trying to justify all the time we spend in front of the TV.

- We know our lives are being warped by C-SPAN. We are addicted and we would hate to be cured.

~~D. CSPAN~~

ian, could you put the time of day on your screen. It would be
a big help to your viewing audience, who get so involved in your
morning program and forget about the time. It makes us late for
work or other appointments. I really enjoy your program.
