To Those at C-Span,

I wanted to thank you for showing the public the Day Right march that was held in Washington.

I never thought that I would have to change the channel on C-Span because of what my children may hear or see. But I did that day.

I have mixed emotions about it even being aired on television because of the intolerable acts and language that was there that day.

But I guess I ask C-Span to let the public know the truth about the Day Platform. You know you are the only news net work who is fair and tries not to be one-sided.

You may of already and I missed it. But it is obviously from the march they want more than just the right to serve in the military.

Thanks.
