Dear Mr. Lamb:

yesterday on a caller on the view in program asked about the possibility of the recorded votes on the debates, amendments, and final passage. He was told it is possible and format is being considered, as well as to present it. A great idea! I have been thinking about since you had the morning paper with the only totals for that day. Just advise is on several program up-dates and maybe crawlers along repeat programs.

For me I am interested in more than one state, South Carolina, Virginia, Michigan and Ohio as well as West Virginia. How about the same type crawler used during the debates with Bill numbers and word or two of description - followed by the listing as in the State Congressional Delegations same numerical order. That way I can follow in my Handbook.

Thanks again
Sincerely,

[REDACTED]
Hinton, W.V. 25951
