C. Span;

I'm so tired of turning on my T.V. set to C Span and seeing the same people time after time after time. on "Special Orders" It's always the same self serving (on both sides of the aisle) tired old special interests of there own.

I resent it the most when I turn in at night and hope to see a guest on the call in shows, and I see Special Orders for special interests and the scheduled shows are canceled.

How about serving your viewers interests instead of a few who use C. Span for there own aren't I great? you can vote for me!!

Thanks
