Sirs / Madams,

I have been trying to reach you for quite sometime but to no avail.

I am a Republican but will be switching over to a Democrat as I am thoroughly disgusted, ashamed and sickened with what is going on in this beautiful country of ours. It is a disgrace with other second rate countries looking on at the U.S.A, the most powerful country in the world.

The Republicans had it in their power, as the majority in both the Senate and the Congress for their fellow Americans and their country. A few problems that could have been solved:-

1. Social Security - many elderly people would like to work as they go into the Supermarket and can't even buy enough food and other necessities but they

are taxed and have to pay back after a certain amount made.

2. Health Reform - so many can't afford to get proper care

3. Military bases being closed creating jobless situations a weakness in that structure - politics closed the N.T.C. in Orlando a very equipted Base and spending millions of tax payers monies to rebuild other facilities when no money would have to be spent in Orlando.

There are so many good that could have been done if they were not getting their kicks on the Gay situation.

Ken Starr has his own axe to grind - he is not asilly white as he pretends - no wonder he has a constant grin on his face. he is milking the American Taxpayers - forty million dollars so far and he is not finished as yet. Retaliation is the name of the game.

The Republicans will see the day they started this shameful vendetta - washing our dirty linens in public. Most of them could never stand up to scrutiny - getting like Pompey idiots

3.

and getting their picks out of set.

President Clinton did nothing wrong to be impeached in the true sense of the Constitution - he lied under oath and most people would have to save his family and his country from embarrassment for it was a stupid thing to do. In the true sense of the terminology, President Clinton did not go to bed with the tramp Monica.

I like others, am sick of this Set and 'Vendetta' situation - it is Shameful !!

The Senators and Congressmen seem to have forgotten that they were voted in to do the will of the people and to make things better for their country and citizens. They need to pay attention to the polls.

Respect, self-respect and dignity is missing. Digesting!! Madness!!

Yours truly,
