Dear Brian Lamb;

There is hardly a caller who does not preface their remarks by congratulating C-Span and you in particular for such a uniquely fair forum for public opinion, So add my name to a growing list of admirers,...Until a few days ago I could'nt remember just when I began viewing C-Span, but as C-span remarked it had been on twenty years I pin-point the time as 1980-81.

"Booknotes, Washington Journal and the History" programmes I do enjoy so much...I have never ventured to "call-in" because I am neurologically handicapped after experiencing a stroke; often I laugh at the serious, cry with real tears (when ordinarily one should be amused,) so I fear embarrassment,..Thus I choose to write...

Charlie Reese said that history would'nt treat the Clinton Administrations foreign Policies very kindly;..I concur with that Statement and it's entirely possible that in the early elections in Israel Netanyahu may remain in office, whilst Clinton leaves in disgrace!..

I have'nt the foggiest idea which way the "trial" will end and there is no doubt that all Americans are becoming wearied of the whole Idea of impeachment; yet in reality we the people are on trial as much as the president himself!...Apathy plays a large role, but now that thinking Americans see the result of apathy it should be seen as imperative to make every qualified American to cast the vote;

America seems to have reached that stage in it's experiment with democracy where mob-rule is the norm rather than the exception...

I grew up in a Protestant ministers home...Dad pastored several Churches in the small communities in Oklahoma; I left home to join the navy in 1954, but I never got away from His teachings...He said to always tell the truth even if it hurt you in the short run for it would build character and tends toward a long life..The Judeo-Christian values and the expectations of my Family and peer group within those church and decent communities in Oklahoma...

Dad always reminded me that in the churches there are two set of rules; one for the ministers kids and one for the congregations children... "One bad mistake on your part and I'm a goner," he'd remark..I've made my mistakes in life, lots of them! however, I never brought reproach upon him whilst at home because I had so much respect for him and his Christian Ideals..It rubs off on you; now that I'm getting a lot older I look back on the wisdom of a righteous father...

American citizens raised in the Churches are less likely to go wrong, but believe me I've seen it all in my time; When ministers children go wrong, they usually go off the deep end! Been there, done that! OVER

But if we are to go on living at all, we have to come clean, ask forgiveness of Family, wife and fellows where we then can ask the God of creation's forgiveness. If we can't bring ourselves to that principle, then our crimes against ourselves and others become pathological and chronic...

I'm sure you've studied Bill Clinton's psychological profile at one time or another; The poor fellow hasn't got past his teens emotionally and yes acts like a spoilt little child! His fellow democrats are treating him as such, but the truth is; He just might have to be tried now as an adult and take a man's dose of medicine!

Yet in his arrogance he very well may think (even if the trial is a close vote) he has a better chance that public opinion will win, for it's my opinion, he feels he is above the law!

How does he perjure himself time and again, have no remorse except being caught! Just as Drug addicts do!... a Criminal mind acts that way... I'm not a psychologist but I read. Johnny Cash's best Albums were written and produced when at the height of his drug using days... Some of the greatest, most popular and talented artists were drug users, sex addicts and alcoholics... Tennessee Williams never sat down to write, unless He had his favorite wine to drink... Sex addicts are the same way; they display a great amount of Focus! Bill Clinton has this unusual Focus because he is intoxicated on illicit sexual encounters and craves that high no less than a cocaine user.

I enjoyed what senator Inhofe of Oklahoma had to say this morning with Susan; he spoke of wily Post and another famous Oklahoman (I forget) yeh, Will Rogers!... Almost all Oklahomans have that down home quality about them!... in the main talk a bit slower but think things through,...

Mr Lamb, I apologize for the length of my letter but is the way I choose to communicate these days for reasons stated at the beginning... and No, I don't think you're a communist either!... I really enjoy C-spans programming; it's the very best.

I always vote my conscience and my man, or woman usually loses to the less desirable; If, the senate chooses to keep Clinton in to finish out his term, I believe it may be obvious before he leaves that America pays a terrible price!

Very Respectfully, [REDACTED]
