Brian Lamb,

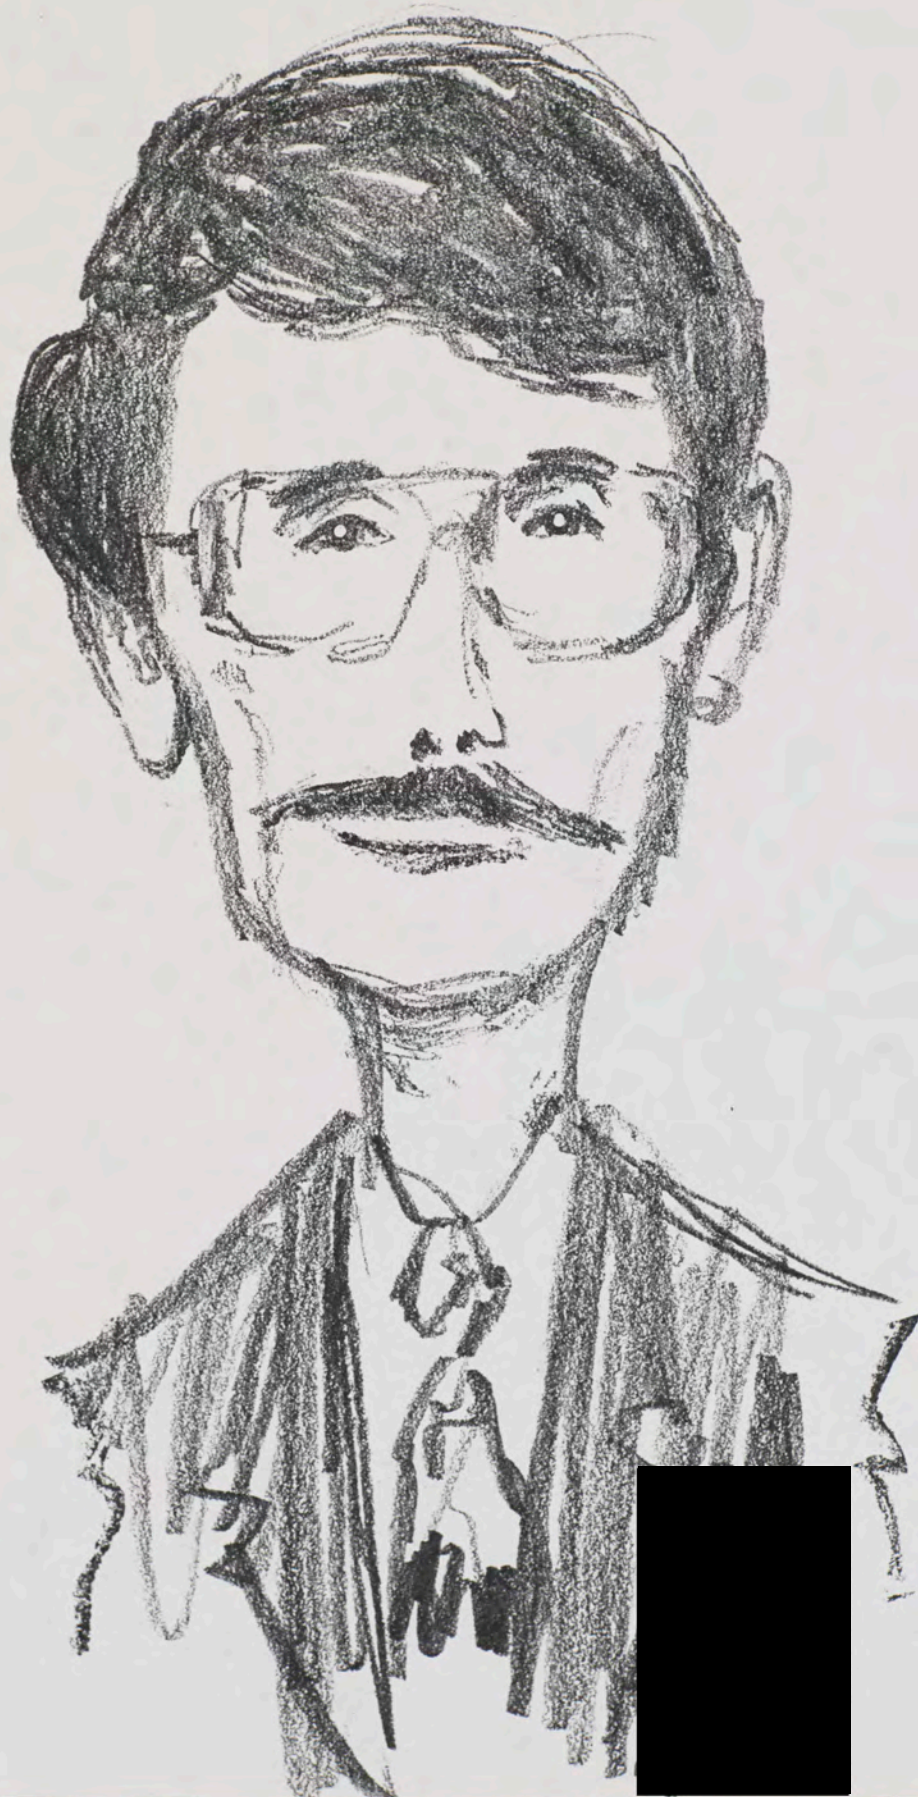

It's hard trying to capture one's caricature when the TV camera is not **PANED** on you long enough at any one time, and then the head is moving so much, but I think I finally got you and your staff.

You have my permission to use these caricatures ⁱⁿ anyway that you wish for future promotional Material.

If you show these on your C-SPAN. Please have one of your staff to notify me, so that I may ^{make a} tape on my VCR. I watch C-SPAN every morning. It's been said many a time that your **FORMAT** is the best thing going for this country!
