C. Span -

We are your biggest booster. Since your programming is never published in any paper or TV Guide I have tried to advertise it and inform all my friends of your upcoming programs.

When we lived in the Washington area I was able to get every Nat'l. Press Club luncheon, one of my favorites of your many great programs. Now we are at least happy to pick it up once a week following the President's Radio address which ^{they} ~~you~~ televise here on Sat. at 5:45. While I know your policies is non-partisan and even-handed I do not understand why, when the President makes a weekly

address (which is the President's .
right, ~~well~~-earned) ^(you) it is
allowed to have the opposing
party respond. This is not a
campaign or election. Further
it has never before been the custom,
when a President addresses the public
to keep the nation informed during
his Administration, to have a response
by the opposing party -

Further, while it should not be
allowed, it is suppose to respond
to the President's address. It has been
used to tear down the Administration
and today Sen. McCain talked about
an entirely different subject than the
address, citing all the mistakes of the
present Administration as the Republican
responders usually do.

Think about this and give this
President the dignity his radio address
deserves. Sincerely,

C-Span Chairman
Brian Lamb and Susan Swain
and Robert Kennedy
