Dear C Span,

AUG 17 AMSD

I love your Programs of Journalists on Current Political and Government Policies - their Pro's and Cons and the question and answer Call ins. I hope you keep inviting back the Journalists ^{who} ~~to~~ started their investigation right from the start on "October" Surprise - Arms for Hostages and illegally funding the Contras when Congress cut off funding. Now we find all of this that began in 1980 with Reagan - Bush Presidential Campaign and their Team Players - who were given Plush Government Jobs - first by Reagan - and like Musical Chairs they are still in Government under Bush. And they were involved in the Fraud of Banking - both Banca Nazionale Del Lavoro in financing both the Contras and Iraq. and our Federal Reserve and Justice Dept and CIA tried to Classify all Documents so that Congress was refused these Documents when The Committee on Banking, Finance and Urban Affairs were investigating this fraud - and when BCCI Fraud was made Public - low and behold the Contras and "Ollie" North and Iraq was funded by this International Bank that our Government People (Past and Present) are involved in this Fraud - and some (or all) S & F Fraud was connected with BNL and BCCI,

Please will you have those same Journalists back on C-Span Periodically and give us an Update - It is so funny to me that some of the Journalists you have on your Round Table of Discussions - never heard of this mess - I also would like one of your Journalists Round table to answer our question why all we see of Our President and his Secretary of State is going up steps of a plane or Helicopter or coming down We never see them visiting one of our United States where there is a disaster - whose only economy is the Military Base located there and now it is closed - how about the Factories - like Good Year Tire Co - Leptels - Steel - etc - when Mexico - Japan - Korea etc gobbled up our Factories - Our good paying jobs gone to Foreigners all we have left is Service jobs - America built those Factories from scratch back in the 30's and 40's and 50's and one Jap lover who received 2 million for giving them the plans to our Factories and pushed America back to a lower standard of living - This could be a hot Topic for your Journalists and the call ins - While all the Players in Washington D.C. will be on August leave of Absence would be a good time to hear up you show.
