Dear Mr. Lamb:

While the infamous Bobbitt's themselves had a sick marriage, and are by far from being your average man or woman, the Bobbitt decision is simply a last straw in our nations sickening politically correct agenda to abuse, demean and rape men. Every person in America knows that if John Bobbitt suffered a period of "temporary insanity" during which he was compelled by an "irresistible impulse" to cut off the nipples or breasts of Lorena Bobbitt, he would have been convicted and imprisoned for 20 years, with no parole.

Judges must begin to reject temporary insanity defenses, for these are merely a sexist joke to justify crimes by women. The Prosecutors committed gross malpractice during final oral arguments when they declared John raped Lorena. A prior jury trial found John not guilty of that charge.

The latest Bobbitt jury decision only encourages more women to perform violent attacks on their mates. Repeated studies (**Brinkerhoff** 1992, **Sugarman** 1989, **Giles-Sims** 1983, **Straus** 1977) have all documented the growing intensity for violence by women, which now stands at a 55% national rate (domestic violence committed against the opposite sex, by sex of attacker). Today in America, women spend less than a year on average in jail after murdering their mate, yet men are imprisoned for decades on this same crime, or the lesser offense of rape.

Many men have begun to wear a blue ribbon tied to their belt loop as a symbol of protest over the Bobbitt decision, and serves as a warning that violent acts of unpunished feminist brutality are not acceptable.

For the past 30 years, feminists have manipulated the media to persuade the public that women are victimized. This has produced brain washed jury decisions, as in the Bobbitt case. They are dead wrong.

It is high time for the real men in America to get organized and turnaround our current destructive feminist claptrap of misandry and denigration of men and fathers. Contact the Men's Defense Association, 17854 Lyons Street, Forest Lake, MN 55025 (612)-464-7887. This is the oldest and largest men's rights organization in America today.

Sincerely
