Dear C-SPAN:

Thursday night Aug 19, '93 was a banner evening - you answered my request of a few months ago for - "A Conversation with Ross Perot."

The tour of Mr. Perot's office was an inspiring experience, and then we were in on a conversation with two men of vision. Men who love their fellow countrymen.

Ross Perot has a vision of lifting us out of 19th Century politics and moving us forward into the 21st century. Right now, in our situation, ideas if we're all down in the doldrums. "No raising our sails - and Mr Perot is trying to convince us that we all have to get on the long boats and man the oars - til we hit the Trade Winds."

Brian Lamb had a vision of a television channel offering history, politics, geography, biographies, public speaking, journalism, etc.

He is educating the people.

Both Mr. Perot, and Mr. Lamb, are serving the people; and each in his own way is showing us we can learn and accomplish more than we think we can.

Please, thank the staff who put on this magnificent program.

Thank you C-SPAN for your excellent programs all year long.

I'm sending a similar letter to my fellow members at United We Stand, America in Dallas.

Sincerely,

[Redacted signature block]
