To whom it may concern,

I have been watching your wonderful coverage of D Day. Words cannot express the emotions felt by me and must be felt by others as they watch. Thank you.

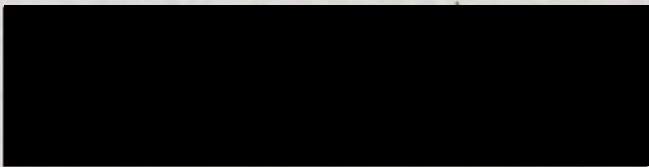

I must know the name of the music played as we watched the part about the German cemetery in that area (the lava stone crosses were mentioned) someone said the music was by Wagner -

It was shown on 9-7-94

It is very important to me.

Maybe you could mention
the orchestra and any other
pertinent information. I
am enclosing a stamped
self addressed envelope to
facilitate your answer.
Once again thank you.

Sincerely yours
