Mr. Brian Lamb
C-SPAN Networks
400 North Capital Street
Washington, D.C. 20001

Dear Mr. Lamb,

It was very pleasant to see you the other night on the
CNBC Donahue/Posner program discussing the problems that
cable is having with the new law passed by congress.

I agree completely with your position as stated. Donahue
is such a windbag he lessens his position. I did think
Posner made some telling points, however. He is one slick
fellow.

So far C-SPAN I & II are not affected on our cable system
here in Portland, Maine. There is a silly confrontation
here with the question of carrying the broadcast networks.
ABC has made peace with cable but CBS and NBC are still to
come to terms. I feel it is in the interests of both sides
to come to an accomodiation here but there are some stubborn
people in this world who can't understand their best in-
terets.

My cable bill has been reduced 20% by the way, so I am one
who has seen a substantial decrease in billing.

Most Sincerely [REDACTED]
