Mr. Fred Lamb - C-Span 5-26

Your quest's on Saturday nite on a pre-corded of earlier time, I wanted to call but couldn't!

I sorta good mad at the way the reporters report on Republicans, they call us "right-wing" and you never hear them say "left-wing", their liberal democrats are just that not called "left-wing", never, never hear them and it made me "furious".

A caller said or called his attention about his "right-wing" remarks then he shrugged - "right wing" "left wing" was way he shrugged it off.

Its on other talk show too if its Donahue, Geraldo etc',

And I sure don't like it at all, they do the same thing on abortion they call Conservatives Anti-Abortionish and what do they call the radical feminist, its pro-Choice, well hell we are

"pro-life" but do you get what I'm saying?

When you interview the reporter's, put down how many say it when it's on either subject??

I'm more or less a "shut-in" and I read everything I can on the Congress and the "left-wing democrats" especially, I look at CNN and C-Span, I don't miss much or either!

And am I getting educated getting how media report this way they actually add their views and that comes out "liberal" that another word you don't hear from them they are sure they identify "Conservative" or they stick it under their nose on TV.

I also hear that reporters think Pres. is a moderate, I told some of my friends that he was a "liberal Republican" and we are seeing it strongly, and people are writing in Human Events I'm sending Pres. Bush a copy and calling it to his attention too!
