Dear Spinners,

The policy of the Conservative-Spin game becomes more obvious by the day as your blatant partisanship is demonstrated in such a bald-faced manner. It's easy to discover fault with a democratic Congress if that is your target and easier still to ignore all faults of the Administration when you are serving as a patsy to cover up all the criminality of a tired out sold out crumbling "Republican" regime (the last REAL republican died in 1904 (Mr. George F. Hoar) that is rotten to the core (and has been since Jay Gould, Jay Cooke and J. P. Morgan swallowed it since the 1870's and the notorious bought-or-stolen election of 1876). What is a real crime is that the SHILLS at C-SPIN so falsely claim to represent or portray the "democratic" process of the 90's.

Your position, like so much of the Banker-Press, clarifies what is wrong with American politics today, a covert control of TV by the filthy rich elite in this country who no longer even try to hide that fact. It has become too obvious. It must also be obvious to AGENTS like yourselves that enough citizens saw through your phony act to vote against Brian Lamb, Bush + Company — to return a strong democratic Congress — forseeably well into the next decade. (Thank you — the Back-fire boys of the C-Span Vaudeville Act!)

The truth is that unlike myself the vast majority of U.S. voters don't bother with the Lamb gang and TV's other manipulators. You are conveniently tuned out! Your propaganda is so grating and blatant that you catch the same disease as afflicts the hard left wing in the U.S. = You fall in love with your own lies — and end up talking only to committed Conservatives.

the spinner game of Lamb + Murphy, the MAC and MEYER of pathetic amateur propaganda has been unveiled and repudiated. You no longer choose to discuss the great election that you spent 2 years of wasted propaganda hours building up to - because - YOU LOST IT! So you dropped that issue like a Hot potato - 2 days after the election. Too Bad Boys! and after all that hard work - (and all those lies!)

Whatever orders come down from Bush HQ - is your immediate concern for this week's Spin-Blitz of lies, cheerleading and smear-innuendo.

In spite of all the Big Guns that the elite colonialist Banker-Rich control - like CNN, GE-TV - the ABC-TV horror show, the CIA, FBI and Vast federal bureaucracy which all operate as branches of the official "Republican" Party

the people see through all the electronic haze of smoke, mirrors and lies. For the info of those who don't want to know = it was the Silber-hating liberals, Mass. Choice, (and disaffected Italians at the slighting of the decent Frank Bellotti) - that gave WELD the slim edge. It was a real horse Race and now the republicans hold that political bag of merde that is the result of a 2 year campaign of destabilization by Murdoch + the RNC to bury the whole state!

We know the "innocents" at C-Spin are dedicated to the greater goal = the creation of an all Republican Congress - chock that one up = Humanity - 1 - C-Spin 0.

For the meantime, since you have failed so miserably with Congress - you still have your main chore ahead of you = to smear democrats everywhere

and to provide cover, PR and damage-control for a self-destructing regime-of-the-Rich which has mined this country and helped in the slaughter of millions.

No money for books at home? (Mass. isn't really inside the USA - you know - we all live in a seperate Dukakis-land - nothing is the Federal government's fault.) (But 42 States are now in Deficit!)

Closing down all the branch libraries in Worcester, Mass.? The answer of a bankrupt Fuehrer in a bankrupt nation is to go to WAR yet again (at no monetary cost - OF COURSE!) and this time it's obvious to all but the Yellow Ribbon Custer-Brains - that this is only a WAR for Bush's own political survival at home. It really has nothing to do with the Persian Gulf - (excepting the fact that his Zionist-fascist Video-propagandist allies have been trying to drag us into this one for 25 years).

Bush is so desperate and so conditioned to the "republican" Bloody Shirt, Anti-commie political success story of the past 40 years that they can't get it into their heads that the country is bankrupt and the game is over. (Meanwhile the powerful Japs are becoming restless and openly pay homage at the shrines of Tojo and the 8 war criminals the U.S. killed in 1946.) Reagan + Bush have done more to build up our most dangerous potential opponent - than any U.S. commie spys ever did.

While Bush deliberately shuts off the oil pipelines and stiffs us at home, while he has to steal from the Social Security fund to keep his rich buddies untaxed and bushytailed, the militaristic banker-colonialist oligarchy that has been using the cold war for a cover-up for 40 years

has come to the end of its Pentagonist rope. (And let's not forget the younger Bush Boys - both with their fingers in the S+L till. It's for sure that the C-Spinners will never have any "Special treatment" or Extra-informative TV extravaganzas to inform us about their thievery.)

You are starving the economy at home for a senseless, pointless futile war.

Any strategist can tell you that after Saddam's country of 18 million are destroyed, the 50 million Iranians will again be our number one headache!

But any war will do for the man without any answers. The anticipated (and provoked) drug war in Colombia didn't come to Fruition? No sweat, there's always some excuse when you are looking for ANY war - to boost your flagwaving phony Image at home.

(But thank god - for the sake of

So. America. Those poor people need a break after 40 years of CIA mayhem in the Region.) After decades of being shafted, lied to, killed and maimed in all the phony "Freedom-fighter" Cold War battles - "the chickens are coming home to roost" (Malcom X) and the U.S. "PEOPLE" is finally beginning to see what has really driven us to bankruptcy since 1950. (and it wasn't Martin Luther's Jigger-boo Friends!).

The committed AMERI-Fascists and Pentagonist employees at C-Span must get the message at long last.

Your candidate for clown-of-the-century - that ~~Scare~~ SCARECROW of the Western world has got himself bogged down in the Desert -

and like the Climaman said to LBJ:
"once you have climbed on the back of the Tiger - you've lost your options."

But the King of Kenone bankpot (I don't guess he'll be claiming TEXAS again – unless he's down there eating crow or looking for his silver Foot) always has CNN and C-Spin at his beck and call to spin a disastrous defeat into a glorious victory – and then rush into the next week's phony image campaign and new-Spin smear blitz – in the real American WAR: the war of the powerful and pimileged who own television in all its insidious glory and the "Money Media" –

Against the working people of America – and the World.

As Always,

P.S. – For the edification of the LAMB-WOLF and his gang – I recommend the REVIEW of "Trail of Blame" by William Pomeroy = A PRIMER of U.S. Neo-Colonialism.
