

Skyline Drive  
Shenandoah National Park, Virginia

The Skyline Drive begins in the north at its junction with US 340 south of Front Royal. It ends 105 miles south at its junction with two major highways, US 250 and Interstate 64. Pictured here in profile, Stony Man Mountain rises above the drive near Milepost 99. 

JM,

I just had an idea:

Allot half the surplus to paying off debt, and half to paying the first  $x$  dollars of FICA (or whatever the acronym).

If the poor saw that tax cut, they'd be for LESS GOV'T SPENDING.

As I wrote, some  
said no 28% till FICA  
limit (good idea).
