

8/30/93

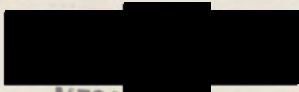

Brian Lamb - Sir:

In each of your interviews with newsmen and authors you highlight the person's work experience and education.

I've been watching your programme for a year and a half and have caught more than half of these shows without once hearing a word about your biography.

Please include your own history from time to time - and more than once please; we don't see each show and you have new viewers.

Cordially
