Gentlemen:

I had the misfortune of seeing Representative Dovnan on CSPAN on September 17. He has destroyed every thing President Kennedy had accomplished when he talked to the Baptist Convention before the election.

I cant believe that Kennedy was that wrong. We have a representative the talks and would therefore vote the Vatican line. He put the church back 100 years! The church should make it move on abortion and do it right away!

Back in the forties I became acquainted with Bishop David of Montreal. He was a distant relative of my wife's, and one day he told me that he had received instructions from the Vatican to phase out the story of Adam and Eve. During that period there was much talk as to weather Adam and Eve were people or Microbes as it had been established that the world was not made in seven days etc. Since that time have you heard any reference to Adam and Eve from the pulpit? The answer is no.

Then there are those untold millions of people residing in hell because they ate meat on friday. This was part of church doctrine for two thousand years. With one stroke the vatican changed all that and catholic's could and do eat meat on friday. I have always suspected that it was the airlines that got it done. They complained that they had to prepare two meals on friday. They can also put a stop to the religios war in Ireland.

We know that the abortion issue is in reality created by the church. If they created it they can phase it out as they did Adam and Eve, the Devil and the no meat on friday thing.

For the good of this country we all hope they step back and stay out of the laws of our land. We have the Great Excommunicator in New York, John Cardinal O'Conner, Who says that he believes in Goblins, Fairies, and things that go thump in the night.(exorcism) According to the U.S.

News and World Report in its March issue he even brought back the Devil! The Devil must have been phased out many years ago.

Some years ago I made the suggestion that the church tattoo their symbol on the back of the right hand of their girls so that their girls could not have an abortion, or receive contraceptives. In that way we could get the religious laws off the books. The American people could go on and live happy and fulfilling lives.

My campaign to have the faithful donate there Uterus for the aborted fetus seams to have failed and I had though that they would block the entrances of our hospitals in their rush to save the fetus from being aborted! That way they could fulfill there goal to protect the fetus. They seem to do anything for the church and raising that crack baby would be very fulfilling.

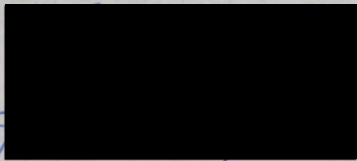

I read the papers and I know that you do also. Did you read last week that God talked to Bob Haifly of Covina California and told him to make a life sized statue of him out of (can you believe this) tooth picks! Well I thought that if God talked to him he may talk to me. With a lot of preparation I asked him if he was against abortion. His answer nothing! He did not say anything! I asked him a number of times with the same result. Nothing! This points out to me that the abortion issue does not interest him. We know that he has been killing fetuses since the beginning of time. This indicates to me that the abortion issue was created by the church, not God! I would like to suggest that all Americans across the country ask God the same question. It would be helpful to have a tap recorder handy to record what he has to say.

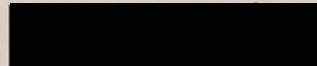

Let us all hope that the church gets the same message that I did and back out.

There was a frightening cartoon in the paper some time back. The cartoon by Ebstein showed two Civil War soldiers facing off with guns screaming abortion epitaphs at each other. It was titled "THE NEXT CIVIL WAR". That civil war may be closer than you think!

Who is that lawyer in Vermont that threatened the Catholic government officials that he would have them kicked out of the church if they didn't vote the Vatican line? He is forcing the Vatican law upon the people of the united States! We are going to watch our Catholic legislators very closely! They should refrain from voting on religious issues and if they don't be forced out of office.

Please send copies to the Catholic legislators so that they will not be caught out on a limb when the church phases out the abortion debate.
