Pseudo-intellectual doubletalk

Dear Brian

I write to you as a decade plus viewer and fan and as one who obeys your rules strictly. It is incredible to me that a woman from California could call CSPAN at least twice PER WEEK when you are hosting on Monday and Friday. I don't hear all your call-ins, so she may be calling more frequently. She did this throughout the campaign, but I started to note down times + dates + locations only recently. Even if you don't recognize her voice, her message is always the same; she is the fiercest defender of Clinton in America. She frequently mentions the LATimes. I have enclosed a list of her calls that I have heard. I hope you will familiarize yourself and your staff with her voice and MO. She has called so often that she has no doubt used her lifetime allotment of CSPAN calls. Perhaps your screener should take her calls and put her on hold for the remainder of the program without comment and without putting her on the air. Do something, please.

Thanks

Brian Lamb
