I write to ask you to consider those of us who have limited vision (altho able ro type) ~~whe~~ by ~~som~~ using some voice to let us know what-s going on instead if just print0 ing it on the screen. Today we had the Gates hearing on C-Span AND CNN snd after 7: (or) 8 AM no hearing ofpublic testimony on the Thomas nomination, altho PBS radio said that was on. It is also a problem for us when ALL broadcasters (TV) identify speakers only by print. This is a problem that I know will always be with us but it would be nice to have an occasional boice odentification. [REDACTED] [REDACTED]
